FloraLife® | Hydrate Hydrangea

FloraLife® Hydrate Hydrangea is specifically formulated to hydrate and condition hydrangeas after harvest and after a period of dry storage. This product increases flower quality throughout the supply chain and consistently results in better vase life performance. FloraLife® Hydrate Hydrangea relies on new technology specifically formulated for hydrangeas to enhance the flow of liquid through the flower stems to provide long lasting hydration and prevent premature and unpredictable wilting.

Benefits:

- Specifically formulated for the hydrangea crop
- Provides optimal vase life and prevents premature and inconsistent wilting
- Improves water uptake
- Contains acidifiers to lower pH of the water and enhance hydration
- Maintains cleaner hydration solutions to reduce stem blockage
- Effective at room temperature and in storage coolers
- Reduces volume of water used after harvest, saving costs and increasing sustainability, due to the ability to be used for hydration and transport
- Prepares hydrangeas for dry shipment
- Rehydrates hydrangeas after a period of dry storage or transportation
- Helps reduce flower scrap
- Compatible with end-of-stem bags

Item Code	Container	Size	Case Pack
80-82017	Jug	1 gal / 4 L	6
80-82018	Pail	5 gal / 19 L	1
80-82019	Drum	30 gal / 114 L	1
80-82020	Tote	264 gal / 1000 L	1

Dosage: 5 ml / 1 L
