

Express Rose Clear 300

fresh rose flower food - NO STEM RECUT

liquid

Express Rose Clear 300 is a unique and innovative rose food that allows fresh roses to keep fully hydrated and fed without having to recut the stem before putting in solution. A unique formulation for the beautiful rose, this NO STEM RECUT flower food is engineered with ingredients to keep rose bouquets and arrangements looking fresh. Express Rose Clear 300 promotes uptake for hydration and nutrition and keeps stems clear and free flowing, helping to reduce bent neck. This high value flower crop can yield greater sales and repeat business with the use of this premium flower food.

For Retail Floral Shops and End Consumers

Features and Benefits

- Eliminates the need to recut the stem ends before placing in the solution
- Brilliant flower color, making the rose petals showy and vivid
- Eliminates steps, quick and easy—no cutting, less waste
- Suitable for use with roses and foliage greens
- Floral designs remain true with consumer handling
- Also effective with stems that have been recut

Directions for Use

- Remove foliage from the flower stem area which will be located below the solution level in the flower container.
- Make sure the vase or flower container is clean prior to use
- Mix Express Rose Clear 300 according to the packet instructions for a finished rose food solution
- Place flower stems in the container. Add additional solution as needed.
- Change out solution at least once per week and use clean containers when filling with new solution

Dosage

Dispense 10 ml Express Rose Clear 300 flower food per 1 liter of water (1% solution).
