

# FloraLife® EXPRESS Universal 300

Liquid

*Fresh cut flower food for Beautiful flowers! Great vase life, No worries for your customer. Happy Customers will always come back!*

Express Universal 300 is our newest flower food innovation. Appropriate for all flower types, Express Universal 300 provides hydration and nutrition to the fresh cut flower, even if you do not recut the stems! This is our Express Technology - NO STEM RECUT required, now available in our flower food packet offering. Your customers will love the results from this breakthrough technology. They will enjoy their beautiful bouquets for a long time—even if they don't recut the stems.

***It is a “no worries” solution!***

## Features & Benefits

- “No worries” solution. Same great performance but you do not have to recut stems every time it goes in a new solution
- Quick and easy
- Brilliant flower color
- Same great performance as with other Florallife® flower foods, but with less handling
- Floral designs remain true with less consumer handling
- Can be used on flowers that are stored dry for up to two weeks

*Can be used on all flower varieties and foliage greens, as well as with flowers that are uncut, or have been newly cut. As with all new product, we recommend you do in-house trialing for confirmation based on local conditions such as water type, sanitary conditions and varieties used. Difficult-to-hydrate varieties may react differently to unique conditions*
