MicroBLOC® Greenhouse Disinfectant - Liquid Concentrate
EPA Registration #10324-94-32258 - On EPA List N

MicroBLOC® Greenhouse Disinfectant is an EPA-registered effective antimicrobial and antivirus disinfectant designed for use by wholesalers, retail florists, supermarkets, bouquet makers, shippers and greenhouses. When used as directed, this product will disinfect hard, non-porous surfaces such as flower buckets, tools, floors, walls, design and packing stations and countertops. Can also be used as a general purpose, long lasting, antimicrobial detergent for efficient cleaning and disinfecting action against bacteria, fungus and viruses.

Product features and benefits

- **FloraLife® MicroBLOC® Cleaner meets EPA's criteria for use against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19. See EPA List N for more details.**
- Can be used as a general purpose antimicrobial detergent for efficient cleaning and disinfecting action against bacteria, fungus and viruses.
- Non-acid disinfectant, virucide, fungicide, and a mildewstat.
- Will not leave a grit or soap scum.
- Can be applied through automatic washing systems, immersion tanks, foaming apparatus, low pressure sprayers and floral processing equipment (anti-foaming agent may be needed). Can be added to water in underwater cutters to prevent the build up of bacteria.
- May be used as a general purpose antimicrobial detergent at florist shops, wholesalers, shippers, greenhouse packing areas and other commercial horticulture places.
- Used for efficient cleaning and antimicrobial action against bacteria which causes plugging of stems and reduces water uptake of various cut flowers including roses, chrysanthemums, gladioli and tulips.

Product use instructions

- See label for detailed scenario use, storage and proper disposal directions.
- For heavily soiled areas, add 1.5 ounces per 5 gallons of water to disinfect hard non-porous surfaces.
- Apply use solution using a brush, sponge, cloth, mop, auto scrubber, mechanical spray device, hand pump, coarse pump, trigger spray device or by immersion so as to thoroughly wet surfaces.
- For sprayer applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Treated surfaces must remain wet for 10 minutes.
- Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.
- Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty.
