

# Comparison of Finishing Sprays

Finishing Touch	Crowning Glory	Leafshine
Systemic hydrating treatment; controls moisture loss	Topical hydrating treatment	Topical shine treatment
Nutrients absorbed into leaves & petals	Adds luster to floral arrangements	Adds non-oily shine to plants
Allows flowers to 'breathe,' continuing to take up water & flower food	Provides a waxy moisture barrier that holds moisture in	For use on leaves, not flowers
<b>Best for:</b> Floral arrangements in vases or floral foam	<b>Best for:</b> Corsages, Wristlets, Boutonnieres	<b>Best for:</b> Potted plants, indoor plants
Whenever flowers have a water source	When flowers have a limited or no water source	When adding shine to leaves & greens
