

FloraLife® Clear Ultra 200

Storage and transport concentrate treatment - 2X

Two times more concentrated than Clear 200, Clear ULTRA 200 display, storage and transport concentrate treatment has more active ingredients in every drop. In fact, a 20 L container of concentrate provides the same number of doses as a 40 L container of nonconcentrated product. More concentrated means less freight cost, less labor to change out containers when empty, and 50% less plastic used and needed to be recycled.

Great for processing, shipping, or shop displays when wanting to keep flowers from opening prematurely.

Benefits:

- Provides a balanced formula to lower the pH and increase the speed of flower hydration.
- Provides the appropriate amount of nutrients to inhibit premature bud opening and bent neck in flowers.
- Helps in keeping the flower stem's "plumbing" free flowing.
- Effective at room temperature and in storage coolers.
- Finished product is clear in all water types.
- Helps reduce flower scrap and customer credit adjustments.
- Can be used with all flower varieties.

Floralife® Clear Ultra 200

Item Code	Container	Size	Case Pack
#81-10031	Jug	5 L	1
#81-00026	Jug	10 L	1
#81-10034	Jug	20 L	1
#81-10033	Drum	200 L	1
#81-11022	Tote	1000 L	1
