

# FloraLife® Express

## Ultra 300

# FloraLife® Crystal Clear®

## Ultra 300

The concentrated versions (Ultra) of FloraLife® Express 300 and FloraLife Crystal Clear® 300 flower food provide all the great benefits of the current versions of these products, but at an increased concentration. More concentrated means less freight cost, less work changing out empty containers, and 50% less plastic used and needed to be recycled. Not to mention the reduced cost per gallon of use solution!

Make sure to adjust your dosing unit to 1%, 1:100.

### CONCENTRATED FORMULA

#### FloraLife® Express:

- Faster hydration
- Improved performance
- Appropriate for use with all flower types
- Provides optimal vase life
- Maximized customer experience
- Stem cutting optional. Same results
- Savings in labor, scraps and costs

#### FloraLife Crystal Clear®:

- Excellent choice for clear glass vase arrangements
