

Carnation Care and Handling Tips

Purchasing

- Standard Carnations: Choose stems with closed blooms but showing full color.
- Spray Carnations: Choose stems with closed blooms, showing some color on lower buds.

Shipping and Storage

- Shipping and storage temperatures should be 34 38° F with a relative humidity of 75-85%.
- Dry storage is best, but only if temperatures are maintained between 34 to 38° F.

Re-hydration at Store Level and Storage

- · Start processing with a clean bucket, sanitized with FloraLife® D.C.D.® Cleaner.
- If received dry packed, conditioning of stem ends is recommended to prevent blockage and promote uptake. Cut approximately 1" or more off stems. Use clean, sanitized clippers or knife, and treat with FloraLife® Quick Dip.
- Place flowers in a holding treatment such as FloraLife® Express 200 or FloraLife® Clear 200. Do not put flowers directly in metal/galvanized buckets. Use clean, high quality water that has not been treated with a water softener as the salt levels can be damaging to flowers.
- Store in a cooler at 34 38° F with a relative humidity of 75-85%.
- Allow minimum 2 hours to hydrate placing buckets in an area with good airflow.
- Always remember FIFO (first in/first out) when rotating Carnations or any other flowers.

Vase Care

- Remove any leaves that might be below the vase solution.
- Cut approximately 1" or more off stems.
 Use clean, sanitized clippers or knife. If received dry, treat with FloraLife®
 Quick Dip.
- Immediately place flowers in vase solutions containing FloraLife® Crystal Clear or FloraLife® Express 300.

Special Considerations:

- · Botrytis can develop in the blooms. Always maintain the correct temperature and humidity levels during storage.
- Carnations and Mini Carnations are ethylene sensitive. Insist that your supplier treats with an ethylene action inhibitor such as EthylBloc™ or FloraLife® EthylGuard to protect exposure. Do not store or display near ripening produce or products that produce ethylene.
- · When cutting stems, do so between nodes.
