

# FloraLife® QUICK DIP

Instant hydrating treatment for  
all cut flowers.

HYDRATE

[www.FloraLife.com](http://www.FloraLife.com)

**DESCRIPTION:** FloraLife® Quick Dip Instant Hydration Solution is a ready-to-use treatment that helps maximize solution uptake and provides flowers with a quick hydration boost. It is designed to reduce bent neck and droopy stems. Flowers will be quenched and vibrant as a result.

**CATEGORY:** Hydrate

**USE:** All flower and foliage types

**BENEFITS:**

- A short immersion in FloraLife® Quick Dip Instant Hydration Solution is sufficient to treat the flower stem. It ensures maximum water and nutrient absorption.
- Instant hydrating treatment that keeps fresh-cut flowers quenched and vibrant. Re-vitalizes blooms to full freshness.

**WHO:** High volume users, growers, shippers, bouquet makers, wholesalers, supermarkets, florists, and event planners.

**WHY:**

- Ready-to-use solution, no mixing required.
- Helps reduce flower waste/shrink.
- Aids in reducing bent neck and droopy stems.
- A must for roses, gerbera daisies and field grown crops.
- Can be used on all flower varieties including premade bouquets.
- Ideal pre-treatment to maximize the benefits from FloraLife® Storage &Transport and Feeding solutions.

**PREVIOUSLY KNOWN AS:** FloraLife® Quick Dip 100

Item Code	Size	Case Pack
#80-10205	1 L	12
#80-10200	5 L	1
#80-10307	20 L	1

**DOSING:**

- This is a ready-to-use product (no mixing required).

**USAGE:**

- Re-cut 1" or 3 cm off the bottom of the stems with a clean knife or cutter.
- Place stems in about 1" or 3 cm of FloraLife® Quick Dip Instant Hydrating Solution for approximately 1 to 3 seconds.
- Immediately place flowers in a Florallife® Fresh-Cut Flower Food solution.
- Discard used solution daily or if it becomes cloudy or contaminated with debris.
- Never pour used solution back into the original bottle.

**RECYCLED CONTENT:** A percentage of this product's packaging is made from recycled content. This means that this portion of the packaging has had at least 1 life before! See the mark on the front label for how much recycled content is included in this packaging.
