

# Delphinium

## BLUE SPIRES OF SUMMER!

Delphiniums are one of the few naturally occurring true blue flowers, and what a delight they are! Adding these stems to any arrangement is the perfect way to re-create a summer garden indoors.

Available in shades of indigo, sky blue, and white, these magnificent spires are not only a pleasure to work with, they are a guaranteed mood lifter by bringing the outdoors inside.

## CONTEST

Send us a picture of your Delphinium arrangement(s) at [marketing@floralife.com](mailto:marketing@floralife.com) for a chance to win our Fresh-Cut Flower Care Kit. We will announce the winner on Monday August 11th, 2025.

## CARE & HANDLING INFORMATION

### PURCHASING

- Remove any leaves that might be below the vase/bucket solution.
- Start processing with a clean bucket, sanitized with FloraLife® D.C.D.® Cleaner.
- If received dry packed, conditioning of stem ends is recommended to prevent blockage and promote uptake. Cut approximately 1" or more off stems. Use clean, sanitized clippers or knife, and treat with FloraLife® Quick Dip.
- Place flowers in a flower food solution such as FloraLife Crystal Clear® or FloraLife® Express 300. Do not put flowers directly in metal/galvanized buckets. Use clean, high-quality water that has not been treated with a water softener as the salt levels can be damaging to flowers.
- Store in a cooler at 34 - 38° F with a relative humidity of 75-85%
- Allow minimum 2 hours to hydrate placing buckets in an area with good airflow.
- Always remember FIFO (first in/first out) when rotating flowers.
- Keep away from direct sunlight and ripening produce.

### COMMON DEFECTS

Delphiniums are ethylene sensitive. Flowers can shatter prematurely as a result. Source from growers who pre-treat against ethylene.
